Reformers, who are striving to dig away the foun-

One of these tracts entitled, " True Basis of

morality herets known, or with any law of mor-

ality hereto discovered, and she asserts that "diff-

based wholly on authority; it has drawn its sanc-

tions from the supposed will of the gods; it has

been rendered alluring by bribes of heaven, and

utter ignorance of the teachings of the old philoso-

phers. Says Plato, "Perfect virtue is the highest

element of hapiness, and would, if possessed as-

suredly secure it." "The morally wrong can

never be truly expedient." "It is always, and

under all circumstances, better to suffer an injury

than to do one." Virtue is horsely the soul's best

Now the authority of the old philosophers was

only such as wise and good men always exercise;

such as some men not very good nor very moral,

as Voltaire and Tom Paine exercised over their

followers; such as Charles Breadlaugh is now ex-

ercising over his disciples. But this is evidently

not the sort of authority referred to by the writer

of the tract before us. She means authority en-

forced by rewards and penalties; or, to use her

own words, morality " has been rendered alluring by bribes of heaven, and enforced by threats of

Without admitting that the science of morality

has ever made any advance, she would begin the

study anew: for "authority and intention, or con-

science both fail." Then she goes on to assert

that " the true basis of morality is utility; that is,

the adaptation of our actions to the promotion of

the general welfare and happiness, the endeavor so

to rule our life that we may serve and bless man-

Now this was precisely Jeremy Bentham's theory

of morals; but perhaps Annie Besant never heard

of Jeremy Bentham. The theory is a beautiful

one; but it has one radical defect. It cannot be

put into practice. Selfishness is the governing

principle in the world, and it will not listen to the

doctrine of "The greatest good to the greatest

of morals promulgated by the ancient philoso-

phers. While a very few heeded their precepts

philosophers had never taught a better way. Says

to a high degree of wisdom and virtue. * *

But the truth is that, in those very matters in

kind, * * * * they did nothing or worse

than nothing. They promised what was imprac-

ticable, * * * * * and they left it (the world) as wicked and as ignorant as they found

it." But the boast of these modern reformers is

no less confident and arrogant than was that of

the ancient philosophers; and their boast will be

as empty as was that of Voltaire who said "that

with one hand he would overthrow the editice of

Christianity, which required the hands of twelve

apostles to build up." Their motto, Clear the way

means " Do the same thing that Voltaire attempted

to do." "Christian morality has had its turn," so

says the tract, "and the present state of society,

its crying shame, its cruel suffering tell us that

authoritative morality has failed," and so these

which will bear all assaults unshaken, and which

can maintain its ground against hostile criticism,

must be content to give up their heaven-born

theories, and to walk humbly in the path of the

study of earth-born phenomena; they must follow

the scientific method, and must be able to demon-

strate the solidity of every position they take up."

This sentence, though writen for the benefit of out-

which these reformers are pursuing: just as though

the ancient philosophers, as well as those of re-

able to understand all the lessons which "earth-

lay than that already laid which is Jesus Christ.'
